An Esthetic “Nightmare” The Ultimate Challenge

This complex anterior esthetic disaster will test the limits of your treatment planning skills, as you engage in solving this post-treatment esthetic complication. The members will find the challenge formidable, yet approachable, and should have little difficulty in understanding the proposed treatment options and their rationale. Clinicians will also be tested by the severity of breakdown present but should also be excited to develop plausible solutions. The group will be able to compare their treatment recommendations with that of a well-known expert, and the discussion should lead to one of our more robust treatment planning sessions yet.

Upon completion of this session, attendees should be able to:

- Develop treatment plans utilizing an interdisciplinary approach.
- Identify the proper diagnosis to drive treatment options.
- Enhance understanding of basic and advanced techniques and technology.

**Michael Cohen,
DDS, MSD, FACD**

Tx Planning

Lecture, up to 2.5 hours

Implants

AGD Subject Code 690

Refer to the calendar for specific dates and times.

Disclosure of Commercial Support: Dr Michael Cohen is the founder of Seattle Study Club.

Oct

Uncovering the Drivers to Increase the Value of Your Practice

There's quite a collection of myths and misconceptions many practitioners believe determines the value of their practice. Whatever your plans, whether expansion or retirement, an accurate assessment is essential to either of those next phases. It's time to bust those myths and determine a clear and accurate value for your practice. Join Ken for an in-depth discussion about key differentiators, how to avoid mistakes, and simple steps to maximize the value of your practice.

Upon completion of this session, attendees should be able to:

- Identify key factors in determining the value of a practice.
- Develop a plan to maximize practice value.

Ken Runkle

Bespoke Business Academy Module

Facilitated by Club Director

*Lecture, up to 2 hours
Practice Management and Human Relations
AGD Subject Code 550*

Refer to the calendar for specific dates and times.

Disclosure of Commercial Support: Ken Runkle does not have any current or past affiliations to disclose (such as receiving research grants, speaking engagements, travel reimbursements, honoraria, etc).

Nov

The Analog and Digital Approach! The Best of Both Worlds for your Daily Treatment Success

Is a fully digital workflow feasible and practical in esthetic and functional dental reconstructions, or is there room for analog steps to streamline the process and make it more predictable?

In implant reconstructions, a successful strategy should include the integration of digital and analog procedures, as well as considering the overall comprehensive workflow rather than single independent steps.

This program will highlight the essential analog steps used during the planning and the implementation phases within the digital workflow, to achieve highly functional and esthetic outcomes in complex cases.

Upon completion of this session, attendees should be able to:

- Successfully implement a treatment sequence for daily workflow.
- Recognize the patient perceived stumbling blocks or difficulties before treatment starts.
- Understand predictable esthetic and long-term solutions in individual implant-reconstructions.

**Martin Gollner,
DMD, DDS**

Live Lecture

*Lecture, up to 6 hours
Implants
AGD Subject Code 690*

Refer to the calendar for specific dates and times.

Disclosure of Commercial Support: Dr Martin Gollner does not have any current or past affiliations to disclose (such as receiving research grants, speaking engagements, travel reimbursements, honoraria, etc).

Dec

An Evening Interview with Stock Analyst and Wall Street's Guru on Dentistry Jeff Johnson

Jeff Johnson understands the economy and can relate this to dentistry and the affects on your practice better than anyone! From teaching ophthalmology at Harvard Medical School, to an MBA at Kellogg, to R.W. Baird Wealth Management and Investment Banking, Jeff Johnson has forged a very unique path to become the most well recognized senior stock analyst in medicine and dentistry. He has offered to spend an evening with us, digging deep into the dental industry, to set the stage for decisions we will be making in our practices as a result of changes in the dental economic landscape.

Upon completion of this session, attendees should be able to:

- Have a better understanding of the economic landscape related to the dental industry.
- Have a better understanding of how changes in the overall dental industry affect dental practices.

Jeff Johnson, MBA

Evening Interview followed by Q&A

Lecture, up to 1 hour
Practice Management
and Human Relations
AGD Subject Code 550

Refer to the calendar for specific dates and times.

Disclosure of Commercial Support: Jeff Johnson does not have any current or past affiliations to disclose (such as receiving research grants, speaking engagements, travel reimbursements, honoraria, etc).

Jan

Digital Dentistry— From Concept to Reality

Digital technologies allow clinicians to create a virtual treatment plan, visualize the potential final outcomes, and share the plan in a format that is user-friendly and functional for all the specialists involved. This program will provide a step-by-step process to implement digital tools to create an easy, efficient and predictable workflow, with references to the literature and illustrative case presentations.

**Marcelo Calamita,
DDS, MS, PhD**

**Gustavo Giordani,
DDS**

**Adalberto Paula
Souza Jr., DDS**

*Livestream from
São Paulo, Brazil*

*Lecture, up to 1.5 hours
Multidisciplinary Topics
AGD Subject Code 149*

Upon completion of this session,
attendees should be able to:

- Demonstrate how to utilize digital tools in case planning and discussion.
- Identify basic components of an efficient digital workflow.

Refer to the calendar for specific dates and times.

Disclosure of Commercial Support: Dr Marcelo Calamita and Dr Adalberto Paula Souza, Jr. do not have any current or past affiliations to disclose (such as receiving research grants, speaking engagements, travel reimbursements, honoraria, etc). Dr Gustavo Giordani is a key opinion leader and receives an honorarium from MIS Implants.

Save the Date

Seattle Study Club Symposium January 26-29, 2022

The Ritz-Carlton, Laguna Niguel Dana Point, California

*\$399 per night (plus taxes and fees)
Book January 25-30, 2022
Call 800.930.5146
Simply scan the QR code.*

Our first Seattle Study Club-wide live meeting is finally on the horizon! Here's the bird's-eye view (full brochure to be published online in August or September 2021). From an educational standpoint, Symposium 2022 will focus on total case management — in other words, how to think about and handle a case from the moment the patient enters your office to the final follow-up. Lectures and workshops will cover communication tools and skills, interdisciplinary diagnosis and treatment planning and of course, the treatment rendered — all with the fusion of digital and analog in mind.

With a faculty of top educators, our goal for Symposium 2022 is to engage you in a thorough and rigorous analytical process and to challenge you to take advantage of everything the digital/analog approach has to offer, leading to better outcomes both cognitively and clinically.

From a social standpoint, to be back together again in one of the most beautiful spots in the US and at one of the top hotels in the Ritz-Carlton chain (and also with most surfaces newly refreshed) is something for which we truly cannot wait. We look forward to being “home again” with our Seattle Study Club family, and both contributing to and benefiting from the huge jolt of energy Symposium never fails to deliver. Symposium has always been about renewal, but in 2022, more than ever!

Questions? Contact events@seattlestudyclub.com.

*Symposium tuition is not included in the cost of your local study club programming. Tuition is TBD.
Rooms at the hotel are limited. The usual 4 night non-refundable deposit applies.*

Feb

Esthetic Analysis and Digital Planning

This virtual workshop will allow practitioners to leverage their photography and intraoral scans by pairing them with software platforms to create efficient 2D smile simulations and learn the fundamentals of digital wax ups and model printing.

Upon completion of this session, attendees should be able to:

- Understand how to render a 2D smile with Photoshop.
- Understand how to render a 2D smile using SmileCloud and possibly 3Shape Smile Simulation.
- Convert a 2D smile design to wax up and print.

Material Requirement: Course participants will be asked to load software like Photoshop, SmileCloud, Meshmixer, Ray-Ware and possibly 3Shape Smile Simulation to their personal laptop computers via trial licenses. Participants will then be guided through the software while working through three different cases. For the best user experience, please bring your personal laptop to the session.

**Parag R. Kachalia,
DDS**

*Virtual Hands-On
Digital Diagnosis*

*Lecture, up to 2.5 hours
Operative (Restorative)
Dentistry
AGD Subject Code 250*

Refer to the calendar for specific dates and times.

Disclosure of Commercial Support: Dr Parag Kachalia is director of educational development and industry relations for Seattle Study Club. Seattle Study Club is working with 3Shape to provide a custom portal for access to the simulation software.

Mar

Non-Surgical Approaches to Skeletal Malocclusions

In this treatment planning session, Dr Bockow will present novel, non-surgical treatment strategies to solve skeletal malocclusions in adults.

Upon completion of this session, attendees should be able to:

- Understand non-surgical adult expansion using TAD-supported expanders.
- Understand dentoalveolar correction of a class 2 malocclusion.

**Rebecca Bockow,
DDS**

Part I: Tx Planning
Facilitated by Club Director

Part II: Q&A
Facilitated by Seattle Study Club

*Lecture, up to 3 hours
Multidisciplinary Topics
AGD Subject Code 149*

Refer to the calendar for specific dates and times.

Disclosure of Commercial Support: Dr Rebecca Bockow does not have any current or past affiliations to disclose (such as receiving research grants, speaking engagements, travel reimbursements, honoraria, etc).

Apr

Oral Pathology in the Real World

This course offers an up-close view into the most common clinical oral pathologies, as well as those which are less common and potentially more serious. After reviewing a comprehensive head and neck examination, ways to differentiate benign from precancerous and malignant lesions will be presented. Decisions about when to refer, whom to refer to, and the necessary steps after diagnosis will also be covered.

Upon completion of this session, attendees should be able to:

- Confidently perform a head and neck/oral cancer screening exam.
- Differentiate benign lesions from precancerous and malignant lesions.

**Ashleigh Briody,
DDS, MS**

Live Lecture

*Lecture, up to 6 hours
Oral Medicine, Oral Diagnosis,
Oral Pathology
AGD Subject Code 730*

Refer to the calendar for specific dates and times.

Disclosure of Commercial Support: Dr Ashleigh Briody does not have any current or past affiliations to disclose (such as receiving research grants, speaking engagements, travel reimbursements, honoraria, etc).

May

Where Does the Rock Go When the Rock Needs Help?

Living and Leading Yourself and Others Through Tough Times

**Sree Koka, DDS,
MS, PhD, MBA**

Evening Livestream

*Lecture, up to 1 hour
Self-Improvement
AGD Subject Code 770*

Our dental degrees do not prepare us to tackle myriad challenges. In everyday dental practice and in our lives, we may be struggling to know what we should do and how we should behave with our patients, staff and loved ones. The shadow questions of what we should not do and how we should not behave add additional stress. To be successful, we need to be leaders, and as leaders, others look to us for the answers to walk them through tough times and challenges. So, during a time when we need a type of help we have never needed before, and acknowledging that leading through crisis requires a special set of skills, where do we go for this help? Join Dr Koka to learn about the tools that are available to take better care of ourselves.

Upon completion of this session, attendees should be able to:

- Describe the impact of stress on maintaining overall health.
- Demonstrate the importance of permission.
- Identify ways to build resilience that prevent or address overwhelming stress.

Refer to the calendar for specific dates and times.

Disclosure of Commercial Support: Dr Sree Koka does not have any current or past affiliations to disclose (such as receiving research grants, speaking engagements, travel reimbursements, honoraria, etc).

COMPLEAT CURRICULUM FINE PRINT

Registration

These are virtual and live lecture, demo, and peer discussion programs suitable for all dentists, dental students, and business professionals regardless of prior experience who are members of this study club.

Register by contacting

Name: Barb Murray

Email: studyclub@drgarine.com

Phone: (561) 723-5105

Please call with any cancellations at least 72 hours before the meeting.

Disclaimer

Some information or presentations may include controversial materials or commercial references. Seattle Study Club cautions all course participants that there is potential risk to using limited knowledge when incorporating new techniques and procedures into their practices, especially when the continuing education program has not provided them with supervised clinical experience in the techniques or procedures to ensure that they have attained competence.

Substitutions

This brochure represents the speakers/programs established at the time of publication; however, speaker cancellations occasionally occur for reasons beyond our control. In the event of such an occurrence, speaker/program substitutions may be made without prior notice.

Electronic/Virtual Education

Participant feedback and interchange with instructors will be facilitated through e-mail and live Q&A for all sessions hosted by Seattle Study Club. For recorded sessions, directors will facilitate group discussion with club members.

Code of Conduct

We are committed to ensuring a safe and respectful meeting environment that is free of harassment, bullying, or offensive comments and/or behavior toward others. We expect all participants whether attending live or virtual sessions to abide by this Code of Conduct policy on all online platforms, or in venues at a meeting, including ancillary events and official and unofficial social gatherings.

- Exercise consideration and respect in your speech and actions.
- Refrain from demeaning, discriminatory, or harassing behavior and speech.

Up To 25.5 Credits Available

(Of which 7 will be submitted by Seattle Study Club and 18.5 will be submitted by Seaside Study Club.)

This activity has been planned and implemented in accordance with the standards of the Academy of General Dentistry Program Approval for Continuing Education (AGD PACE) through the joint program provider approval of Seattle Study Club Nationally Approved, Seaside Study Club locally approved, and Seabreeze Study Club. The Seattle Study Club and Seaside Study Club are approved for awarding FAGD/MAGD credit. Approval does not imply acceptance by any regulatory authority, or AGD endorsement.

The current term of Seattle Study Club approval extends from 10/1/2015 to 9/30/2021. Provider ID# 300136

The current term of Seaside Study Club extends from 9/18/2017 to 9/17/2021. Provider ID# 325886
